THE ROOTS OF GRAL

Music of the group Bohemian Bards is freely inspired by the music of medieval times from 13th until 15th century. Next to replicas of historical instruments as a bagpipes, shawms, cittern (cistre) and fiddle, the band also performs with the contemporary instruments (bass guitar, modern drums) and historical music brings in new and innovative music style.

In addition to modern arrangements of medieval songs in czech, latin and old galician language the group Bohemian Bards provides their own instrumental compositions.
